General Information

This document describes the Bridge v5.3.0 Real Word Test Plan for the year 20243 The 21st Century Cures Act Final rule mandates that health IT developers of certified health IT test the real-

world use of Health IT for interoperability, as defined by the 2015 Edition Certification Criteria. The functionality and use cases included in this testing effort include all certification criteria under 45 C.F.R. §170.315 (c)(1-3) to which Bridge v5.3.0 is certified. This test plan evaluates the real-world usage of the certified criteria, while limiting provider and office workflow disruption.

Certified Product Name and version

- Bridge v 5.3.0

Certified Measures

1. CMS124v11: Cervical Cancer Screening
2. CMS125v11: Breast Cancer Screening
3. CMS130v11: Colorectal Cancer Screening
4. CMS50v10: Closing the Referral Loop: Receipt of Specialist Report
5. CMS147v10: Preventive Care and Screening: Influenza Immunization
6. CMS138v10: Preventive Care and Screening: Tobacco Use/Screening/Cessation
7. CMS139v10: Falls: Screening for Future Fall Risk
8. CMS69v10: Preventive Care and Screening: Body Mass Index (BMI) Screening and Follow-Up Plan
9. CMS149v10: Dementia: Cognitive Assessment
10. CMS146v11: Appropriate Treatment for Pharyngitis
11. CMS131v10: Diabetes: Eye Exam
12. CMS122v10: Diabetes: Haemoglobin A1c (HbA1c) Poor Control (> 9%)
13. CMS134v10: Diabetes: Medical Attention for Nephropathy
14. CMS165v11: Controlling High Blood Pressure
15. CMS137v10: Initiation and Engagement of Alcohol and Other Drug Dependence Treatment
16. CMS127v10: Pneumococcal Vaccination Status for Older Adults
17. CMS2v10: Preventive Care and Screening: Screening for Depression and Follow-Up Plan
18. CMS22v10: Preventive Care and Screening: Screening for High Blood Pressure and Follow-Up Documented
19. CMS156v10: Use of High-Risk Medications in Older Adults
20. CMS347v6: Statin Therapy for the Prevention and Treatment of Cardiovascular Disease
21. CMS155v10: Weight Assessment and Counselling for Nutrition and Physical Activity for Children and Adolescents
22. CMS159v11: Depression Remission at Twelve Months

Certified Health IT Product List (CHPL) ID:

- 15.04.04.1520.Brid.05.00.0.220418

Applicable Care Setting

- Primary Care providers in ambulatory care setting will be the care setting for all real-world testing. This provider group is our main market using the certified product.

Standard Updates

- The Garage will not be updating any standards for certified product Bridge v 5.3.0, (ex. USCDI) through the Standards Version Advancement Process (SVAP). The Garage will comply with required certification updates as defined in accordance with certification maintenance.

Milestones

<u>Timeline</u>	<u>Milestone Description</u>
November 2023	2024 Plan Submission <ul style="list-style-type: none">▪ Submit Real World Test Plan for 2024
January 2023	Customer Participant Recruitment <ul style="list-style-type: none">▪ Identify Practices willing to participate in RWT▪ Detail project plan and scope▪ Confirmations and Agreements
February – May 2024	Testing Phase 1 <ul style="list-style-type: none">▪ Conduct testing with confirmed practices in accordance with the Testing Methodology/Method described for each certification criteria
June 2024	Initial Report Creation

	<ul style="list-style-type: none">▪ Results report based on phase one testing, and review and identify any issues that were not resolved during the testing phase directly and determine further testing requirements.
July – August 2024	Testing Phase 2 <ul style="list-style-type: none">▪ Conduct additional testing with fixes applied for any issues identified in testing phase 1 to ensure all issues have been addressed
September 2024	Final Report Creation <ul style="list-style-type: none">▪ Review results of phase 2 testing and finalize report for review with appropriate technical teams.
October 2024	2025 Real World Test Plan Submission

Test Plan

The following table outlines the test plan for the Clinical Quality Measures (CQMs) listed within.

<u>Certified Measure Criteria</u>		
<u>Planned Metric</u>	<u>Justification</u>	<u>Expected Outcomes</u>
170.315(c)(1) Clinical quality measures – record and export		
Demonstration of the ability to export patient data recorded in the EHR for a specified patient population and import that into the Cypress Test Tool for calculation of specified quality measures.	To demonstrate that the calculation of quality measure out of Bridge v5.3.0 produces the same results when calculated by the source system and/or configured testing tool (ex. Cypress Testing Tool).	Documentation evidencing the ability of the application to export quality measure data used in achieving matching results in the demonstration for 170.315(c)(2) when quality measures are calculated by the Cypress Test Tool.
170.315(c)(2) Clinical quality measures –Import and calculate		
Demonstration of the ability to calculate quality measures for the patient population and measures specified	To demonstrate that the calculation of quality measure by the EHR produces the same results when they are calculated by the source system and/or configured testing tool (ex. Cypress Testing Tool).	Documentation evidencing the ability of the EHR to export quality measure data used in achieving matching results in the demonstration for 170.315(c)(1) when quality measures are calculated by the Cypress Test Tool.
170.315(c)(3) Clinical quality measures--report		
Demonstration of the ability to generate QRDA 1 and QRDA 3 files which comply with the CMS QRDA Implementation Guide.	To demonstrate that the EHR can produce QRDA files acceptable for submission to CMS sponsored quality reporting programs.	Documentation evidencing successful submission of QRDA files to CMS sponsored quality reporting programs via client attestations of successful upload
