

 connect.interact.advance 

Who are we?

The Garage – A one-of-a-kind tech company built on a foundation of innovation, creativity, technology and entrepreneurship.

What do we have to offer?

Bridge redefines accountable care delivery through:

Care Coordination & Connectivity – An integrated platform that enables easy, seamless and secure exchange of patient information. Other value-added features include eReferrals, scheduling, secure messaging and provider collaboration.

Population Management – A unique approach to full population management within the network. Key features include quality measures tracking, wellness management, provider education, preventive health screening and monitoring, administrative reports, clinical patterns, revenue optimization and operational analytics.

Member Engagement - 24x7 online and mobile access to key health and educational information to members. Members can also securely communicate with their designated care team.

Care Management – A patient-centric care management solution that includes health risk assessments and stratification, transitions of care and follow up, care plan definition, management and tracking.

Why would you choose us?

Bridge is a proven platform. The Bridge framework has helped various ACOs to jump-start their activities and report quick wins. We know what it takes and can help with off-the-shelf workflows and solutions within Bridge.

We have the experience – and the deep knowledge of healthcare – to execute. We've combined a strong tech focus with the right processes, philosophies and people to architect the next generation HIPAA compliant platform in Bridge. With Bridge, we help healthcare organizations provide accountable care, lower costs, empower patients, share in savings and increase revenues.
